Description

This lovely 2-bedroom, 2-bath corner condo doesn't just feel like home-it lives like it! From the moment you arrive, it wraps around you like your favorite sweater on a quiet morning-easy, comforting, and quietly beautiful. There's a softness to this space, a kind of everyday luxury that feels warm, relaxed, and completely inviting. Vaulted ceilings & cheerful skylights bathe the home in natural light, giving everything a gentle, airy glow. Thoughtful updates add both style and ease, including newer LVP flooring (2023), brand-new windows (2024), and updated lighting (2025) that brings a subtle, modern warmth to every room. The kitchen was beautifully remodeled in 2019 with new cabinetry and granite countertops-perfect for slow mornings or lively evenings. Upstairs, the loft-style primary suite feels like a peaceful retreat tucked away from the world with a separate entrance & a fully renovated en suite bath-complete with updated flooring, countertops, bathtub, and sink. The second bedroom & a rare main-floor bath offer flexibility for guests, a home office, or whatever fits your lifestyle. Everyday details have been thoughtfully considered, from the in-unit stacked washer and dryer to the tankless water heater. The under-stair storage has been reimaged with a custom barn door-turning a practical space into something quietly charming-while an additional storage closet just outside your front door adds even more convenience. A convenient covered garage parking spot makes coming & going effortless. And then there's the location-tucked into one of Lakewood's most loved pockets. Just 0.8 miles to Sloan's Lake and moments from Edgewater Market, Edgewater Brewing CO, Joyride Brewing CO! You're surrounded by parks, trails, great food, & easy access to both downtown Denver and the mountains...this is truly a spot that puts everything within reach. If you know the area, you already know how special it is. And if you're new-welcome. You're going to love it here!
