Description

Set on what is arguably the most breathtaking homesite in Cypress Fields, 159 Davidson Road offers a setting that feels worlds away from typical neighborhood living. Surrounded by mature trees and backing to a wooded landscape with no direct rear neighbors, the property delivers a rare sense of privacy, openness, and calm - all while remaining within this sought-after luxury community. From sunrise coffee on the covered front porch to evenings overlooking the expansive fenced tree-lined backyard from the covered rear deck, every outdoor space was designed to take full advantage of the spectacular setting. Built by Infinity Custom Homes in 2019, this stunning 5 bedroom, 3 full and 1 half bath residence pairs elevated design with warmth, character, and exceptional craftsmanship throughout. A striking exterior with stone accents, bold architectural lines, and double front doors opens into a dramatic entry flooded with natural light, framed by soaring ceilings and rich hardwood flooring that carries throughout the main living spaces. Designed for both elegant entertaining and comfortable everyday living, the home flows beautifully from room to room. The formal dining room makes an immediate statement with custom built-ins, wine storage, floating wood shelving, and designer lighting - a space equally suited for intimate dinners or large holiday gatherings. Nearby, glass French doors open into a private office filled with natural light and front yard views. At the heart of the home, the showstopping kitchen blends custom finishes with timeless style, featuring an oversized island with seating, quartz countertops, custom cabinetry, stainless appliances, double wall ovens, a true brick backsplash wall, and designer pendants. The adjoining living area is nothing short of stunning, anchored by exposed wood beams, oversized windows overlooking the wooded backdrop, and a beautiful fireplace that creates warmth and scale within the open-concept design. Functionality was not overlooked, with a thoughtfully designed mudroom and main-floor laundry complete with a built-in dog washing station. Upstairs, the primary suite feels like a luxury boutique hotel experience, offering expansive proportions, a remarkable dressing room-style walk-in closet, and a beautifully finished ensuite with double vanities, a freestanding soaking tub, and oversized glass shower. Additional bedrooms are generously sized, while the finished third level with its own full bath creates the perfect guest suite, lounge, media space, or flex living area. Outside, the setting becomes the true centerpiece of the home. The sprawling yard, tree-lined perimeter, wooded views, and covered outdoor living spaces create an atmosphere rarely found in newer construction communities - private, peaceful, and incredibly picturesque in every season. Completing the home is a 3-car garage and an enormous unfinished basement offering endless potential for future expansion. Every inch of this home reflects intentional design, exceptional quality, and a homesite that simply cannot be replicated.
