Description

Beautifully updated 6-bedroom Victorian country home in La Rue Des Vallees There are perhaps a handful of houses in Jersey that stop you in awe at the gate. Les Alpes is one of them. Built in Victorian Gothic tradition in the late 1800s, the house has been entirely reimagined in the past few years, with an interior that reads less like a period restoration and more like a West London townhouse. The current owners have maximised every opportunity to emphasize the many original features and blended them with a lovely contemporary finish, resulting in a perfect mix of character and practical function. The accommodation comprises entrance hall, living room, dining room, kitchen, study, and cloakroom at ground floor level, and four bedrooms - one utilised as a dressing room - plus three bathrooms on the first floor. The top floor features a large bedroom suite with ensuite bathroom and dressing room. The lower floor can operate as part of the main house or as a self-contained apartment - ideal for use as staff accommodation, a teenager's wing or to provide rental income. This level consists of hallway, living room, kitchen, bedroom, bathroom, utility room and wine room. The property is perfect for entertaining and family gatherings both inside and out. The kitchen anchors the social life of the house - generous, beautifully finished and designed as much for gathering as for cooking. The grounds are genuinely private, enclosed by mature planting, and accessed via both a main and separate service entrance with parking for numerous cars. The summerhouse - designed to mirror the architecture of the main house - provides its own distinct entertaining space: a considered retreat within the grounds from which to appreciate both the gardens and the house itself. The integrated wellness area - discreet, sheltered, and suited to three seasons - completes an offer that moves seamlessly between the intimate and the convivial, the restorative and the celebratory. It's a short drive to Gorey harbour and St Catherine. The house is well placed for the school run with St Michael's School and St Helier readily accessible. Living Elegant entrance hall leading to main reception rooms and through to kitchen and cloakroom. Features include high ceilings, ceiling roses, parquet flooring and tall windows providing lots of natural light. Functional fireplace in living room. Lower level with impressive stone floor can be used as part of the main house or as a separate second generation unit. Sleeping Six bedrooms in total being five in the main house and one at lower floor level. Five bathrooms including three ensuite. Outside Beautifully landscaped garden featuring spacious lawn, various dining areas, wellness area and topiary maze. Services All mains. OFCH. Alexa runs through whole property including summerhouse making communication instant. Two large store rooms to side. Contact for viewings Don Miller don@broadlandsjersey.com 07829 917172
