Description

Welcome to this lovely modified 2 story, 4-bedroom, 4-bath home nestled within the Providence community of Farmington. Enjoy the open and flowing main level that fills with light and expands throughout the family room, dining room & kitchen. Eat and entertain in the dining room or at the informal breakfast bar island while making full use of the beautiful kitchen with granite countertops, stainless steel appliances, tile back splash and walk in pantry. Step out to the large maintenance free deck complete with stairs to the backyard and solar lights. Continue past the kitchen, and you'll arrive at the main level mudroom and half bath off the garage entrance. Upstairs, you'll find 3 spacious bedrooms including the primary with walk in closet and private en-suite, another full bath and the laundry room conveniently located near the bedrooms. Escape to the finished lower level and take advantage of the walk-out lower-level family room which provides endless possibilities to relax, have fun and create memories. The private lower-level 4th bedroom is perfect for guests, a home office, exercise room and more. There is also a lovely bathroom with a walk-in tiled shower on the lower level. The 3-car garage is insulated, heated, and ready for all your projects and hobbies. The garage doors are adorned with windows and are larger than the standard at 8 feet tall. The extra storage above the garage is accessed with a convenient pull-down ladder. Lawn maintenance is made easier with the in-ground irrigation system. This Providence neighborhood is conveniently located near parks, ball fields, the golf course, walking and biking trails, restaurants, shopping, easy access to downtown Farmington and so much more. Get ready to make this one your new HOME!
