## Description

Hardwood floors. French doors. A backyard that feeds you. This 4-bed, 4-bath Gale Ranch home is move-in ready from top to bottom - freshly painted, beautifully maintained, and filled with natural light. Ideal for families, school-age children can easily walk to top-rated schools, including Quail Run Elementary, Gale Ranch Middle School, and Dougherty Valley High School. The open kitchen-family layout centers around a large island with an extended table, purpose-built for gatherings. Upstairs, a versatile loft/self-contained suite offers a full bathroom, views of Mt. Diablo, a closet, and a balcony. A spa-like primary suite with French doors, a balcony, a walk-in closet, and a conveniently placed laundry room make daily life genuinely comfortable. The standout? One of the largest lots on the block, with a mature, curated edible garden: Mission fig, apricot, pomegranate, cherry, lime, tangerine, champagne grape vines, and passionfruit - plus rosemary and sage. A private patio ties it all together for year-round outdoor dining and entertaining. Additional highlights include a 2-car garage with epoxy flooring, EV charging ready, and access to exclusive community amenities, including a clubhouse, pool, and gym
