TRITSI PROJECT, Tritsi, Corfu

6  7  1 

£370,000
(€420,000)

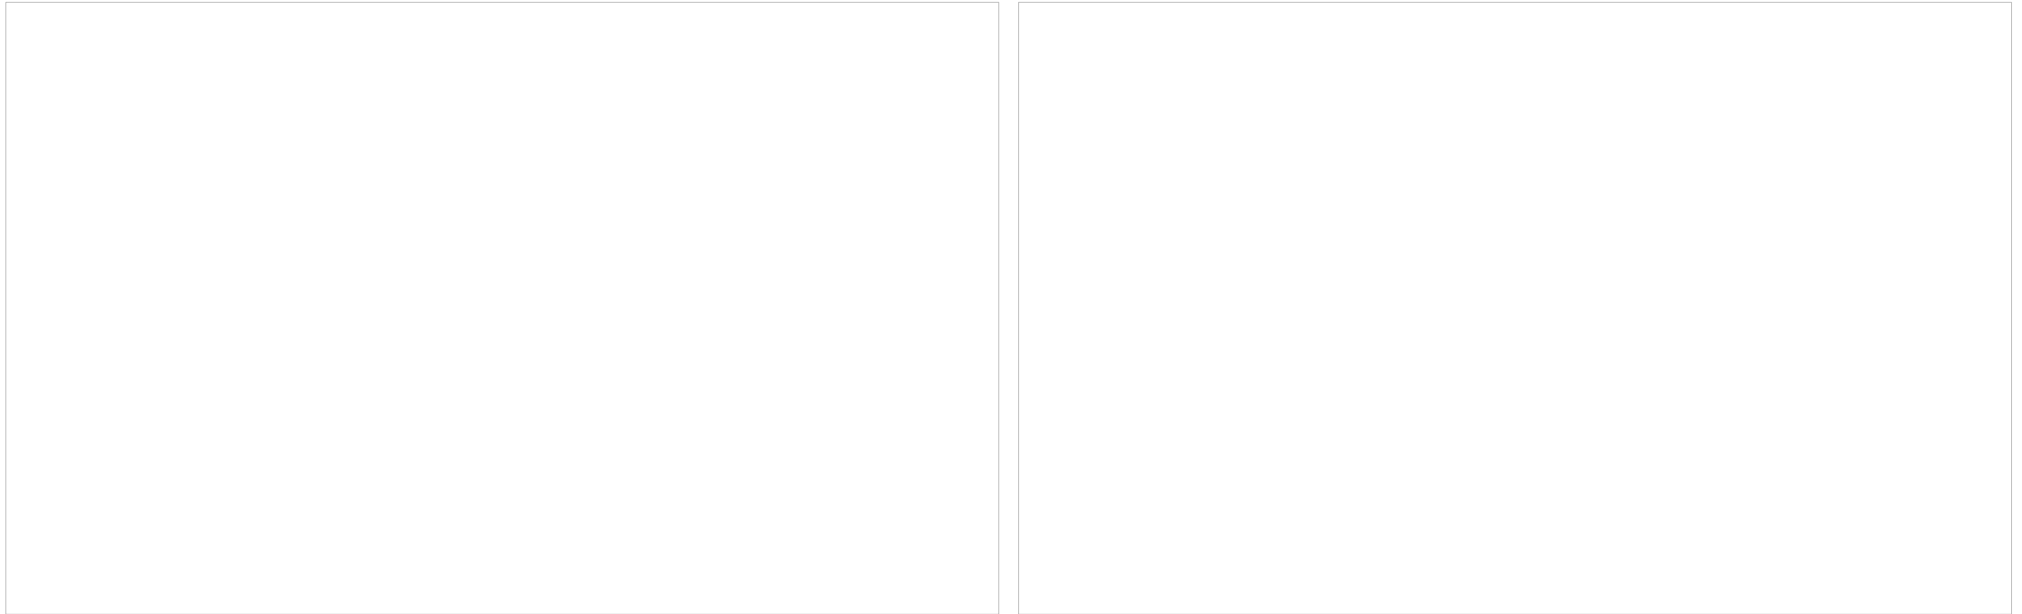

Description

A unique project in the area of Tritsi with lovely sea views. Situated on the edge of a quiet hamlet in the north east of the island, this unfinished project has wonderful sea views and lots of potential. The building is currently still at concrete stage, with planning permission in place for an extension, making the building a total of 355m². The current plans are designed to offer 6 bedrooms, 7 bathrooms, a large living room/kitchen/dining area, a study/cinema room, storage and laundry room and a 60m² swimming pool. The total size of the land is 1000m², with easy access, electricity and water on site. Resorts and beaches such as Kassiopi, Avlaki and San Stephanos are approximately a 10 minute drive from the property. The advertised price is for the building in its current state and the licences, it does not include completion of the project.
