## Description

Set along one of Deephaven's most quietly admired streets, this timeless residence on Heathcote Road captures a rare balance of classic architecture and livable design. Framed by a two-acre, tree-lined setting, the home unfolds with a sense of calm permanence-where elegance has been allowed to exist, uninterrupted, and intentional. The architecture reflects a refined, traditional sensibility-graceful in proportion, welcoming in presence-while the interiors offer a more fluid, updated, natural flow. A main-level primary suite anchors the home, complimented by four additional bedrooms on the upper level, creating both privacy and natural separation of space. At its heart, a richly appointed library/den-wrapped in natural wood built-ins and centered around a fireplace-offers a rare, intimate retreat. An open kitchen flows seamlessly into a window lined family room with fireplace, creating a warm, light-filled gathering space for everyday living. Formal dining provides a setting for more curated gatherings, while the home's lower level expands into an exercise room and entertainment space designed for everyday living. Outdoors, the experience is equally compelling. A beautifully integrated pool and patio sit within the privacy of mature trees, creating a setting that feels both expansive and secluded. Located within the Minnetonka School District and complete with a three-car garage /electric charging option - this is a home that speaks quietly-but with lasting impact. A legacy home, in a classic setting-where architecture, landscape , and atmosphere align effortlessly.
