Description

Welcome to this architecturally detailed modern 2026 custom home built from the foundation up in Chatham's highly coveted Upper Washington Ave section. Blending thoughtful design with effortless daily living, this 6-bedroom, 5.1-bath residence features a flowing floor plan for relaxing and entertaining. A 2-story foyer creates a warm first impression, showcasing white oak flooring, rich millwork, cove molding, and coffered ceilings. The heart of the home is an expansive chef's kitchen with a quartz center island, prep sink, Wolf range, pot filler, walk-in pantry, and a sunlit breakfast room. This space opens seamlessly into a welcoming family room with a cozy gas fireplace. The main level also offers elegant formal living and dining rooms, a mudroom, and a flexible bedroom with a full ensuite bath. Upstairs, the primary suite is a peaceful retreat with a cathedral ceiling, cove lighting, wall-mounted bed lamps, a feature wall, custom walk-in closets, and a spa bath with dual vanities, glass shower, and soaking tub. Three additional bedrooms, two baths, laundry, and attic access complete the second floor. The finished lower level adds a large recreation room, utility room, and a sixth bedroom with a full ensuite bath. The property includes an oversized 1-car garage, new paver walkway and patio. Walk to top-rated schools, downtown shops, and the Midtown Direct train. A truly wonderful place to call home!
