Description

You've just discovered the home that truly has it all. This custom-built residence features a full, beautifully finished terrace level and showcases exceptional craftsmanship from the moment you step inside. The welcoming foyer is flanked by a dedicated office or sitting room and highlighted by a designer accent wall that leads seamlessly into an elegant, spacious dining room. The family room exudes warmth with its cozy fireplace, coffered ceiling, and rich hardwood flooring throughout the main level. The chef's kitchen is a standout, complete with a large granite island, newer stainless-steel appliances, custom lighting, and crisp white cabinetry. From here, step out to the enclosed porch - your year-round retreat - featuring its own fireplace and mounted TV for effortless entertaining. Upstairs, the primary suite is a true sanctuary. This expansive room features its own fireplace, two walk-in closets with custom shelving, and a luxurious bath offering dual vanities, a soaking tub, and granite finishes. Three additional bedrooms provide excellent size and comfort, complemented by an upgraded secondary bathroom. The terrace level is designed for both fun and functionality. Custom wall details lead you into a space perfect for hosting, complete with an exercise room, a secondary family room with fireplace, a kitchenette, beautiful barn doors throughout and ample storage. Step outside to your private paradise. The backyard feels like a resort, featuring a sparkling saltwater pool, a heated hot tub, and beautiful stone pavers overlooking the lush landscaping and palm trees. A putting green adds a playful touch, while the gazebo's outdoor kitchen - equipped with a gas grill, countertops, and cabinetry - lets you channel your inner chef. Additional highlights include a storage shed, garden space, and professional landscaping throughout. Located near Chateau Elan, top-tier restaurants, shopping, and major parkways, this home offers luxury, convenience, and lifestyle in one perfect package. Your search ends here.
