Description

Experience modern sophistication in this updated home, zoned to highly acclaimed Katy schools. This property offers a top-tier education and proximity to shopping, dining, and major transit arteries without sacrificing the peace of a premier neighborhood. Whether hosting gatherings or working from the private home office, this floor plan caters to every need. Inside, gorgeous wood-look tile flooring flows throughout. The heart of the home features a striking palette, where dark granite countertops contrast against crisp white cabinetry. Enjoy the privacy of the first-floor primary suite, featuring two walk-in closets, a seamless glass shower, and a freestanding tub. The backyard is a showstopper; cool off during Texas summers in your own sparkling pool. Designed for both relaxation and recreation the large backyard comfortably accommodates a play set while leaving plenty of manicured lawn for pets or gardening. Notably, all windows were upgraded to double-pane glass in 2024.
