Description

Step into a storybook lifestyle with this rare 1920s English Cottage in a prime location near Punahou in Manoa. This 4-bedroom, 4-bathroom treasure is a masterclass in craftsmanship. From the stone-accented facade to the mature, manicured gardens, every inch of this home transports you to a different era. The living spaces radiate warmth with rich hardwood floors and breathtaking vaulted timber-beamed ceilings. Signature diamond-pane windows and elegant arched doorways frame views of the lush Manoa valley, while the updated kitchen delights with custom cabinetry and a classic farmhouse sink. The layout is flexible: two bedrooms/two bathrooms on the main level, and two more bedrooms/two baths downstairs plus a large family room and wet bar. A private stone patio is perfect for morning coffee or evening entertaining, and the gently-sloping back lawn is resplendent with flowers and fruit trees. Rare frontage on a second quiet street in back provides space for additional parking. This gem is on the National Historic Register as well as the State's, so its property taxes are only \$25/month. Don't miss it!
