## Description

This is a light and fresh feeling end-unit townhome. All rooms are large and the vaulted ceilings, large windows and light woodwork make the home feel even more spacious. The main level features a formal dining room that could also be used as an office, library, tv room or even a guest room. There is a main floor primary bedroom with 3/4 bath and walk-in closet. A 2nd bedroom is also located on this floor. The kitchen will impress with its beautiful lighted cabinets, center island and granite counters. There is a main floor laundry, and the lower level is also set up for a washer and dryer. The lower level is perfect for game nights, watching movies, entertaining and also offers enough room for exercise equipment. You will find a wet bar, 3rd bedroom, full bath with a heated floor and deep soaking tub, and family room, all in the finished space. Another 700 square feet is left unfinished for a workshop and all the storage space you will need. A large deck spans the entire back of the home and can be accessed from the living room, or conveniently, from the kitchen for grilling or tending plants.
