Description

Step into a home that combines comfort, character, and a location that keeps everything within easy reach. Set in an established neighborhood near schools, this property offers inviting outdoor spaces and thoughtful updates throughout. Mature trees create a welcoming first impression, while the backyard is designed for relaxing or entertaining with a spacious covered patio and extended wood deck. There's also a separate outbuilding ready to handle tools, hobbies, or extra storage. Inside, the open feel begins in the great room, where a high ceiling and corner brick fireplace create a warm, airy focal point. The dining area is filled with natural light from a large window and features a stylish ledge for added visual interest. The kitchen is both functional and attractive, complete with quartz countertops, stainless steel appliances, and plenty of cabinet space to keep everything organized. The owners suite continues the theme of space with its elevated ceiling, along with a bathroom that includes a long double vanity and a soaking tub for winding down at the end of the day. Wood laminate flooring runs through the bedrooms, and the secondary rooms feature unique ceiling details that add personality. The secondary bathroom has been beautifully remodeled in 2025, showcasing a sleek, modern feel with updated finishes. One of the standout features is the sunroom, surrounded by windows and filled with natural light—perfect for a sitting area, hobby space, or home office. With added features like a security system and sprinkler system, this home offers a blend of comfort, function, and everyday livability.
