Description

Meticulously maintained and thoughtfully upgraded, this home gives you the space, comfort, and move-in-ready condition that's getting harder to find. Plus an assumable 2.5% VA loan available for qualified buyers! The kitchen was designed to be the center of everyday living, featuring quartz countertops, a huge island, gas stove, Samsung refrigerator, and an open flow into the living room with fireplace making the entire space feel connected, functional, and inviting. The formal dining room adds character with coffered ceilings and wainscoting, while the flex space downstairs gives you options for a home office, playroom, or study. Upstairs, the oversized owner's suite offers a relaxing retreat with a garden tub and large walk-in closet. A separate media room creates the perfect setup for movie nights, gaming, or additional living space. Even the laundry room has been upgraded with built-in cabinets and a folding table for added convenience. Outside, the work has already been done for you. Enjoy a screened porch, extended patio, fenced backyard, irrigation system, and Tuff Shed all added in 2021. Additional upgrades include interior paint, Nest thermostat, Ring cameras, Flo smart water shutoff system, and a new 2025 dishwasher. The home has also been regularly maintained by Blantons, giving added peace of mind. If you've been looking for a home with space to spread out, upgrades you can actually use, and the kind of care you can feel the moment you walk in, this one deserves a look.
