## Description

An exceptional expanded residence ideally positioned on coveted Trinidad Island in Huntington Beach, this approximately 2,664-square-foot home offers an elegant blend of scale, comfort, and timeless design. Featuring four bedrooms, a versatile bonus room or den (ideal as a fifth bedroom), the layout is both expansive and thoughtfully refined. The central living area serves as the heart of the home, where skylights and windows flood the interior with natural light and vaulted ceilings create an atmosphere that feels open, airy, and inviting. Designed for both grand entertaining and intimate gatherings, the space flows effortlessly into the home's dining area. On the main level, a secondary bedroom provides flexibility for guests or multigenerational living while the primary suite is privately situated in its own wing-offering a true retreat experience. This tranquil sanctuary features a spacious walk-in closet and a luxurious spa like en-suite bath designed for relaxation and indulgence. The kitchen is beautifully finished with quartz countertops, upgraded appliances, and custom cabinets perfectly suited for the culinary enthusiast and entertainer alike. A graceful staircase leads to the upper level, where there are two additional bedrooms, a full bath and a storage room. Additional highlights include a well-equipped laundry room with sink, a newer 50-gallon water heater and a meticulously maintained garage with a new epoxy floor and WiFi-enabled door opener. You will be just steps away from Trinidad Island's beach where you can launch your kayak, stand up paddle or just put your toes in the sand.. A rare opportunity to experience elevated island living in one of Huntington Beach's most desirable enclaves.
