(€750,000)

Description

An impressively renovated former olive press located on the edge of Analipsis, Kanoni, offering excellent potential for further improvement. Located in the lush-green hamlet of Analipsis of the Kanoni area, this home has been beautifully restored from an old olive press, preserving many of its authentic features. Through the gateway, there is a courtyard that opens up to a garden featuring mature trees typical of the area, all surrounded by a fence. There is also the potential to add an outdoor kitchen and BBQ in this space. The original wooden front door opens into a spacious living and dining room, which boasts an impressively large open fireplace and stone flooring typical of these types of buildings. The high ceiling, adorned with well-maintained beams, enhances the room's grandeur. At the far end, the original olive press equipment has been preserved as a striking feature, serving as the focal point of the room. It is creatively used to display decorative items and functions as a mini bar for entertainment. To the left of the entrance, you will find a country-style kitchen that features a built-in table for casual dining. Adjacent to the living room are two bedrooms with hardwood floors that share a bathroom. The staircase leads up to the large bedroom, which also has wooden floors and an ensuite bathroom adorned with gorgeous Italian marble, enhancing the traditional atmosphere. Central heating is installed throughout, while the thick stone walls keep the house cool during the summer. This property is beautiful as it is but offers potential for further embellishment. One could use the space beyond the front gate as parking for one car.
