Description

Charming stucco and brick rambler that's larger than it appears! This spacious home features an open-concept kitchen with beautiful cabinetry and plenty of room to gather. The main level offers hardwood and tile floors, a very spacious primary bedroom with French doors, plus two additional bedrooms and full bathroom. Downstairs, the finished basement provides even more living space, including a family room, exercise room that could be used as office, and laundry. Situated on a double lot, the fully fenced yard includes a beautiful concrete patio with a fireplace area, along with a huge two-stall detached garage with additional storage above. This home has been fully remodeled from top to bottom and includes quality updates throughout, including a newer refrigerator (2025), dishwasher (2024), drain tile and sump pump (2017), and a full sewer liner. This lovely home truly checks all the boxes you've been waiting for!
