Description

Sensational Browndale home in one of St. Louis Park's most sought-after neighborhoods! The home underwent a major addition and complete renovation in 2015-2016, creating a beautifully updated, move-in-ready home with a highly desirable open-concept floor plan. The inviting living room features a gas fireplace and flows seamlessly into kitchen and dining areas. The gourmet kitchen includes a farmhouse sink, expansive 9-foot center island with granite countertops, quartz perimeter counters, tile backsplash, stainless steel appliances, and a professional-style range with pot filler and hood vent. The main level also offers a bedroom (current office), powder room, and mudroom. Upstairs, the spacious primary suite boasts vaulted ceilings, a spa-like bath with a soaking tub, dual-head shower, and walk-in closet. Two additional bedrooms, a full bath, and laundry room with skylight complete the upper level. The lower-level family room provides ample space for entertaining, movie nights, exercise, or play and features a charming potbelly fireplace. A finished bath with a Vigo shower adds extra convenience. Additional amenities include in-floor heat in all bathrooms, a whole-home sound system, a rare attached insulated two-car garage plus a detached one-car garage, and a fully fenced backyard. A truly special Browndale opportunity!
