Description

Introducing CASA DDI's Thatch Palm House, a modern Florida residence in the heart of Coconut Grove, just one block from Main Highway and moments from the neighborhood's restaurants, boutiques, cafs, schools, galleries, and bayfront parks. Developed and designed by CASA DDI, this new-construction home offers 4 bedrooms and 4.5 bathrooms in a two-story layout designed for Grove living. The interiors feature 11-foot ceilings, wide-plank wood floors, custom millwork, floating ceilings with cove lighting, and a striking walnut feature wall. Sliding glass doors connect the open living and dining areas to the pool and tropical garden for seamless indoor-outdoor entertaining. The custom kitchen includes an oversized island, matte limestone-finish porcelain countertops, wood cabinetry, a butler's pantry, and Miele and GE Profile appliances. A first-floor en-suite bedroom offers flexibility for guests or an office. Upstairs, a family loft connects three en-suite bedrooms. The primary suite opens to a private terrace and features two illuminated walk-in closets and a spa-inspired bath with dual vanities, LED mirrors, custom cabinetry, a frameless glass shower, and semi-private water closet. Outside, a saltwater pool with waterfall feature, shell-stone decking, tropical landscaping, and coral-stone walls create a private retreat. Set on a 5,000-square-foot lot, the home offers refined modern living in one of Miami's most walkable neighborhoods.
